TEK LAB CART MODEL 3

The Tek Lab Cart Model 3 introduces a new line of versatile, general purpose oscilloscope carts. Its tilting top tray with removable scope lock-down bar accommodates all three and four plug-in mainframes of 5100, 5400 and 7000 Series Oscilloscopes. It can also accommodate TM 503 or TM 504 mainframes, portable scopes, 576, and 577 curve tracer instruments. A framework on the underside of the top tray accepts one

COMPANY CONFIDENTIAL

or more shelves (one of which is standard) at any one of ten positions. This permits the use of various configurations of instruments such as the TM 500 Series. A safety belt is provided to secure instruments to the top tray, shelves or base platform.

The cart has a blue vinyl finish. It contains a large drawer in its base with provision for a padlock. This drawer can hold up to 4 single width plug-ins and miscellaneous accessories. There is an ac plug strip with four sockets, circuit breaker, and 15 foot attached power cord. Front casters are provided with brakes.
