---

Thank you for your enquiry. We hold an extensive archive of original winding patterns for Leak mains and output transformers. We do not however have the Leak shrouds with their integral solder tag panels. The transformers described below would require you to install into the shrouds and by use of a colour code key wire up to the solder tags. We are pleased to quote as under:

Spec A Mains TL12+ (3920R)

Primary : 0/210/230/250V 50/60Hz

Secondary 1 : 260/0/260V ~80mA

Secondary 2 : 6.3V CT ~ 4A

Secondary 3 : 5V ~ 2.5A

Style : Unframed isolation transformer with an earthed electrostatic screen between the primary and secondary windings. Varnish impregnated. Flying lead termination.

Price £ 54.58 each net e works.

Spec B Output TL12+ (8778)

Style : Output transformer. Varnish impregnated. Grain oriented (M6.35) laminations. Flying lead termination.

Price £ 74.88 each net e works.

Spec C Mains TL12+ (3920)

Sec. 1: 305/0/305V @ 230V input.

Style : Unframed isolation transformer with an earthed electrostatic screen between the primary and secondary windings. Varnish impregnated. Flying lead termination.

Price £ 54.58 each net e works.

Spec D Output TL12+ (3921)

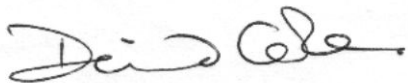

Style : Output transformer. Varnish impregnated. Grain oriented (M6.35) laminations. Flying lead termination.

Price £ 74.88 each net e works.

Delivery TBA when your exact requirements are known

Dispatch – 7/10 days from receipt of cheque remittance or transfer (our bank details will be sent up on request).

Regards,

David Cole,  
Design / Sales
